BIG MUSIC EVENTS CHAUTAUQUA WEEK

W. C. ROLLINS, FIELD MANAGER FOR REDPATH-YAWTER HERE

MEETS WITH COMMITTEE

Summer Program Presents Many Famous Artists.—May Arrange to Use School Grounds.

W. C. Rollins, field manager of the Redpath-Yawter system, was in town yesterday and brought with him the news of some chautauqua "scoops" bigger and better than ever before.

At a meeting of the Chautauqua committee with W. C. Rollins of the Redpath-Yawter company last night, Fred Robinson was appointed to see the school board to get their permission to use the school grounds for the Chautauqua this year.

Among other headlines is the coming of John C. Weber and his Prize Band of America. The Thavin and Kryl bands have been obtained for chautauqua in years gone by, and this season the Redpath-Yawter folks have been able to sign up another big world-famous band for a tour of their chautauqua towns.

The fame of the Weber band dates back to 1902, when Theodore Thomas, the noted orchestra conductor, picked Weber and his musicians over all competitors. They have won the first prize in both the national band contests. They are in constant demand for engagements with expositions, state fairs, world's fairs, and presidential inaugurations. All the musicians are artists in the famous Cincinnati Symphony Orchestra during the winter months.

A big New York scream—funnier than "It Pays to Advertise"—has made its appearance, has taken Broadway by storm, and our chautauqua management has obtained it for 1920—"Nothing But the Truth." Local people will also be glad to learn that Wm. J. Keighley, so popular here in the former play, now starring with Jack Barrymore at the Plymouth Theatre, New York, has been obtained for the big production.

The Criterion Male Quartette of New York City is rated the finest organization of its kind in America. They have sung with Melba, Schumann-Heink, Nordica, Bispham, and made records for three or four of the leading phonographs. They are now touring the east in re-recreation concerts for the Edison people.

A nine-person organization, comprising six great soloists accompanied by their own orchestra, is the delightful combination of the Premier Artists. They broke all records for popularity on the big Redpath circuit out of Kansas City for the last two seasons, and come recommended by Mr. Horner, the manager of the bureau, as "THE ideal musical offering."

Vernon Stone, crack banjoist; Miss Electra Platt, of national reputation as a singer and writer of comic monologues, and Achille Bragers, the Belgian accordionist, are novelty entertainers.

The Columbia Players, six versatile, talented young ladies, similar in artistry to the Althea Players of last year, will open chautauqua. They feature the drums and novelty combinations instead of the violin arrangement of the Altheas.

Miss Dorothy Cole, the "girl with the personality," Victor Spedellere, the French boy violinist, and Althea Heffelflower, pianist, will furnish two preludes.

Edwin M. Whitney, America's foremost interpreter of plays, will give an evening of comfortable entertainment in impersonating the ten characters of the great comedy, "Turn to the Right."

The Hon. Philip P. Campbell, chair-

man of the Rules Committee of Congress, is announced as one of the headlineers. Mr. Campbell not only holds the chairmanship of the most powerful—but one of the three most important—committees in the House, but has had twenty years active experience in leading congressional legislation. He has served on great national commissions giving him unparalleled opportunity for first hand information on America's greatest problems. His subject is entitled, "What of the Republic?"

Dr. Robert Johnston of Montreal, Quebec, a man of the Gensd'Armes Cadman, Bishop Quayle calibre, is a speaker on international platforms. He is described as a huge man, physically, mentally and spiritually. His subject will be "A Modern Jonah."

Ralph Dennis, U. S. Vice Consul at Moscow during the revolution, saw Red Russia first hand. He discusses understandingly the causes, aims, methods and meaning to the world and the United States of this great menace of Bolshevism.

Hon. Henry A. Barnhart, a member of Congress for six terms, has been obtained for his famous "Congress in Action," an actual presentation of our picturesque legislative leaders as they look in action. Uncle Joe Cannon, Champ Clark, General Sherwood, and J. Hamilton Lewis, are some of the leaders introduced.

Ada Ward, the noted English lecturer-entertainer, who has been causing chautauqua's greatest platform sensation, will speak on "You Americans." Eastern press dispatches term her "the little woman with the mother face, home heart and big message."

"What about that boy?" is the theme of Representative W. E. Wenden, an expert on child training. His twenty years' experience in the educational field makes him a foremost authority on one of America's most vital, and also most neglected problems.

Oney Fred Sweet, feature writer and short-story author for the Chicago Tribune, held down 100 different jobs to get color for his popular short-stories. His experiences and philosophy gained are contained in the lecture, "In Other Men's Shoes." Cotton Noe, the well known "Mark Twain" of Kentucky, author of poems and folklore will give "The Great American Home," a poetic interpretation.

John Marvin Dean, former pastor of big churches in Chicago, Seattle, and San Jose, has a gripping message, "America's Tomorrow."

Hon. Quinn O'Brien, Chicago's great lawyer, will be one of the headlineers, with his subject, "The Challenge of the New Era." The chautauqua advertising sums up Mr. O'Brien's qualifications in the following words of the late Elbert Hubbard, "There are not half a dozen public speakers in America with the linguistic skill and phosphorescent purview that Mr. O'Brien possesses. He has the grace of person, the ease of manner, the bubbling wit, and the intellectual challenge that command respect, admiration and love."

Nathaniel Rubinkam, a Chicago attorney, commander of sub-chaser No. 35 in the war zone, gives what Gen. Leonard Wood declares, "The most remarkable description of submarine warfare I have ever heard." Lieutenant Rubinkam was the ranking officer at the surrender of the German U-Boats and crews on December 19, 1918, was present at Scapa Flow, and was awarded the D. S. C. by the government.

The dates of this year's chautauqua will be August 4 to August 10, inclusive.

Mr. and Mrs. Jesse Douglas went to St. Joseph this morning on a short business trip.

MEMORIAL AVENUE OF TREES PLANTED

MARYVILLE CHAPTER, D. A. R. HONORS DECEASED SOLDIERS

COMPLETE COST \$1,400

Bronze Tablets With Engraved Names Cost \$390; Pillars \$200 Each—Architecture Conforms to College

The trees for the Memorial avenue on the campus of the State Teachers college placed by the Maryville chapter, Daughters of the American Revolution, in honor of the soldiers from Nodaway county who lost their lives in the world war, are being planted this week. The college gardeners have attended to the grading of the avenue and have prepared the ground. The college will also give the foundation for the memorial pillars and will take entire care of the ground and trees in future, as their part in the memorial work.

The memorial is costing the D. A. R. chapter approximately \$1,400 and the members expect to raise this entire amount by earnings and contribution. The chapter has no fund other than that obtained by dues which is used for the regular chapter expenses and patriotic benevolences.

The forty four sugar maple trees marking the avenue cost \$70 and the four bronze tablets on which the names of forty-four men are to be engraved have been ordered at a cost of \$750.

The brick pillars on which these tablets are to be placed will cost approximately \$200 each. These pillars are to be of a pattern conforming to the architecture of the college. This chapter has been very solicitous on every detail and endeavored to obtain the most beautiful in construction and the most enduring memorial which would honor in years to come these men from Nodaway county who made the great sacrifice. Elm trees were first selected but afterwards this was changed to sugar maples on account of the latter being much better for this climate.

The chapter has not asked the help of the public so far in this memorial, which is ready to be placed as soon as the work can be done.

A series of entertainments of various kinds to augment this fund, is being planned and the first will be an "Heirloom Exhibit" to which invitations were issued today. This is to be held Saturday afternoon at the home of Mrs. T. L. Robinson and the offering obtained will start the memorial fund.

The heirlooms and ancestral treasures to be shown, are all property of the D. A. R. members and include homespun linens and muslins, hand woven coverlets, candle snuffers writing case of 1833, dishes one hundred years old, samplers, Paisley shawls, coat of arms, letters and revolutionary pension papers, etc.

Tea will be served by a committee from the chapter.

Stop Lashing Your Bowels with Harsh Cathartics but take "Cascarets."

Everyone must occasionally give to the bowels some regular help or else suffer from constipation, bilious attacks, stomach disorders, and sick headache. But do not whip the bowels into activity with harsh cathartics.

What the liver and bowels need is a gentle and natural tonic, one that can constantly be used without harm. The gentlest liver and bowel tonic is "Cascarets." They put the liver to work and cleanse the cold hard bowels of all waste, toxins and poisons without griping—they never sicken or inconvenience you like Calomel, Salts, Oil or Purgatives.

Twenty-five million boxes of Cascarets are sold each year. They work while you sleep. Cascarets cost so little too.—Adv.

How much should I give to make this a better world?

A CERTAIN man in New York filled out his income tax report.

It showed an income so large that his tax was 53%. And his total gifts to church and charity for the year were \$148.

Think of it—thousands spent for luxuries and pleasure for himself; and \$148 to leave the world a little better than he found it!

Most of us do better than that; but not so very much better.

Our average daily gift for all church causes is

- less than we spend for daily papers
- less than a local telephone call
- less than a third of the day's car fare
- less than 3 cents a day

No wonder that 80% of the ministers of America are paid less than \$20 a week. No wonder that the church hospitals turn away thousands of sick people a year. No wonder that China has only one doctor for every 400,000 people. No wonder that every church board and charity society is forever meeting deficits, forever passing the hat.

It isn't because we are selfish; it isn't because we don't want to help. It's just because no one has ever put up a great big program to us, and asked us to think of the work of the church in a systematic businesslike way.

The Interchurch World Movement represents the united program of thirty denominations. They have surveyed their whole task, no business could have done it better.

They have budgeted their needs; no business could have a more scientific budget. They have united to prevent the possibility of waste and duplication. At least a million dollars will be saved by the fact that thirty individual campaigns are joined in one united effort.

And they come to the men or women who love America—to you—this week asking you to use them as the channel through which a certain definite part of your income can be applied to make this a better world.

Only you can determine what part of your income that should be.

It's a good time right now to answer that question. We're passing through the world just once; how much better will the world be because you passed through?

IN CONSTANT USE BY PHYSICIANS EVERY DAY

Medicinal Value of S. S. S. Is Fully Recognized.

Almost every human ailment can be traced, one way or another, to impurities in the blood. So you cannot overestimate the importance of keeping your circulation built up, so that your heart will be constantly pumping rich, red, life-giving blood to all parts of the system. Any slight disorder or impurity that creeps into the blood is a source of danger, for every vital organ of the body depends upon the blood supply to properly perform its functions. It is quite true that practically every one is equally exposed to the attacks of disease. You are just as liable to be attacked as the man or woman sitting next to you on the street car. It all depends upon the condition of your blood. If it is thin and impoverished, and has been allowed to reach a low state by the accumulation of impurities, you have not sufficient vitality to resist these germ attacks, and they find a fertile field in your system to spread disease.

Over a hundred years ago the Indians made many excellent remedies and tonic from roots and herbs gathered from the forests. One of these formulas was handed down to the white man and for

more than fifty years has been used as S. S. S., which is recognized as the best known blood medicine on the market.

This fine old remedy is still made as of old from roots and herbs of proven medicinal value. In fact, physicians everywhere recognize the wonderful efficiency of these roots, and they are prescribed in some form or other almost daily.

And now after being in constant use for more than half a century, S. S. S. is more popular than ever. It is sold by practically every drug store in the land, and every druggist is well acquainted with its sterling merit, for they have seen its results.

S. S. S. is a very valuable agent in the treatment of Catarrh, Rheumatism, Eczema, Tetter boils, pimples, skin eruptions, malaria, and other disorders that come from blood impurities.

It is also without an equal as a general tonic and system builder. By its efficacy in cleansing the blood of impurities, it builds up the appetite and gives new life and vigor to the entire body.

You are invited to write for valuable literature and medical advice, which will be sent without cost. Address Chief Medical Adviser, Swift Laboratory, Atlanta.

MRS. WILLIAM EVERHART SEVERELY BURNED YESTERDAY.

Mrs. William Everhart was badly burned yesterday when her clothing caught fire from a coal stove. A slight explosion of gas in the stove caused the flame to leap through the grate and ignite the sleeve of Mrs. Everhart's dress. Before the flames could be put out, her arm and both hands were severely burned.

STEEL TANK IS USED FOR TREATMENT OF SICK

Kansas City Physician Erects Tank 80 Feet Long to Treat Sick by Air Pressure.

Kansas City, April 25.—A dark veil of mystery surrounding a huge steel tank erected in the yard of Dr. O. J. Cunningham, a well-known physician, has been lifted by Dr. Cunningham, under whose direction it was built. It is to be used in treating diseases by air pressure.

Two types of diseases will be treated in the tank. First, those due to the presence of anaerobic germs. Under this head come certain forms of rheumatism, pernicious anaemia and neuritis.

Other diseases which will be treated include high blood pressure, gout and acidosis—due to irritating substances in the blood.

The tank is eight feet long, ten feet in diameter and is constructed of half inch steel. It is divided into thirty-six compartments, each of which is fitted with a bed and standard sleeping car equipment. It has wash rooms, shower baths and clothes closets.

The treatments will vary from three to twelve hours. The air pressure will vary from five to twenty pounds to the square inch. Thirty-six patients can be accommodated in the tank.

Patients undergoing treatment will be conscious of no pressure except a slight pulsing of the ear drums when the air is first turned on. After five minutes that sensation passes away, and they may read or amuse themselves as they desire.

PROPOSES NEW PLAN OF PUBLIC SCHOOLS

STATE TEACHERS ASSOCIATION WOULD PROVIDE UNIT SYSTEM

ADVOCATES COUNTY TAX

Urges Consolidation of Smaller Districts to Raise Teacher's Pay and Cost of School Buildings.

That each child in each county of the state may have an equal chance for an education, the State Teachers' Association is advocating a county unit system.

The county unit system is a plan by which the schools in a county are put on the same basis as those of a city. The school tax will be levied on the whole county instead of on districts. By the system of taxing school districts, the children in the more prosperous districts have better schools at a lower tax than the schools in the districts where the land and people are not so rich.

"There is no separate board for each school in a city," said Miss Elva V. Dobbs, who is interested in the county unit system. By the proposed system there will be a single school board to handle all of the business of the county schools just as one board handles all of the affairs of city schools.

Under the present system each district has a school board of about three members. Each district taxes itself and tries to run independently. The result is that the educational advantages are unevenly distributed throughout the state.

The proposed plan would do away with many of the one-room schoolhouses or would put them where they are most needed. It has been found that many districts support schools for ten or fewer children. The new plan would consolidate the schools which are close together, thus cutting down the teaching force and enabling the state to pay decent wages to the teachers it employs.

The one-room schoolhouses will be placed where roads may necessitate them. The school authorities will be duty bound by the new plan to provide transportation for the children who live too far to walk to the schools which are provided.

The county unit plan came up in the last session of the Legislature but failed to pass. University Missourian.

SUPREME COUNCIL DRAFTS NEW NOTE ON GERMAN ARMAMENT

Taken to Indicate France Willing for Germany to Raise Armed Forces Beyond Set Figure.

Berlin, April 25.—New allied note formed the supreme council at San Remo and charging the German government with bad faith in execution of the treaty of Versailles was the chief consideration in governmental circles today. In upper circles the note was taken as an indication that France is willing to permit Germany to increase her armed forces beyond that set figure of 100,000. Government officials declared the French military officials would find it impossible to explain the maintenance of a French army of 700,000 as compared with Germany's 100,000.

PASSENGER TRAIN DAMAGES TRUCK, DRIVER INJURED

The truck owned by Cornell & Murray was badly damaged this morning when the westbound passenger train No. 11 hit the truck at the railroad crossing about one mile east of Wilcox. The truck was being driven by George Hammond and in addition to some household furniture contained Mr. Howard and daughter. After driving up on the crossing, Mr. Hammond turned his front wheel to the side of the track and the train took off the fenders, the tool box and the enclosed cab on the truck. So one was injured.

GEN. WOOD WINS OUT IN NEW JERSEY PRIMARY

Massachusetts Unpledged But Favors Coolidge—Washington Delegates Instructed by Poindexter.

Trenton, N. J., April 25.—General Wood apparently has won the Republican presidential preferential primary over Senator Johnson by a very small majority. Unofficial and nearly complete returns from over all the state indicated today the Wood majority is small but is steadily increasing. The returns from the most populous counties came in first and held up the lead for Johnson, but latter returns from the outlying and more thinly populated sections cut down this lead and piled up a majority for Wood. Up state cities of Jersey City and Layman went for Johnson. Johnson supporters would not concede today the Californian had lost state, although admitted Wood had jumped into the lead.

Boston, April 25.—Massachusetts regular states of both the Democratic and Republican tickets went over. Massachusetts will be unpledged but are favoring Governor Coolidge. Opponents of the League of Nations won.

Washington, April 25.—Washington delegates will go instructed for Senator Poindexter.

Mrs. Woodrow Wilson has endorsed the nationwide campaign now being conducted by the National Council of Jewish Women in an attempt to raise \$150,000 or over to carry on its Americanization and women's welfare work.

Columbus, April 25.—Senator Harding, favorite "son" candidate, elected forty-four candidates to Woods' four. The names of Hoover and Johnson were written on many ballots.

Seattle, Wash., April 25.—Washington delegates will go instructed for Senator Poindexter.

Mrs. Woodrow Wilson has endorsed the nationwide campaign now being conducted by the National Council of Jewish Women in an attempt to raise \$150,000 or over to carry on its Americanization and women's welfare work.

J. C. PENNEY COMPANY

One Price to All

and that price bed-rock-low always.

We never discriminate in the prices at which we sell merchandise.

One Price to Everybody—that's the real spirit of the J. C. Penney Company.

Every dollar you spend here has the same purchasing power as your neighbor's—Isn't that your idea of correct business methods?

We are sure that such a method has the approval of every man and woman because people always approve Fair Dealing and that is our customary way of conducting business.

Our Buying Power

In 1919 we sold, for cash, about thirty millions of dollars worth of merchandise. We know it needs very little explanation to convince people that such a purchasing power is sure to entitle us to lowest cost prices. In addition to quantity purchases we do, by our centralized buying organization, almost entirely eliminate the middlemen's profits that generally constitute part of the cost in the usual one-store-only buying.

What we save in buying is passed along to our customer. That fact in itself is a very good reason why we constantly sell at such low prices.
